MELIDES

Designed by Vincent Van Duysen

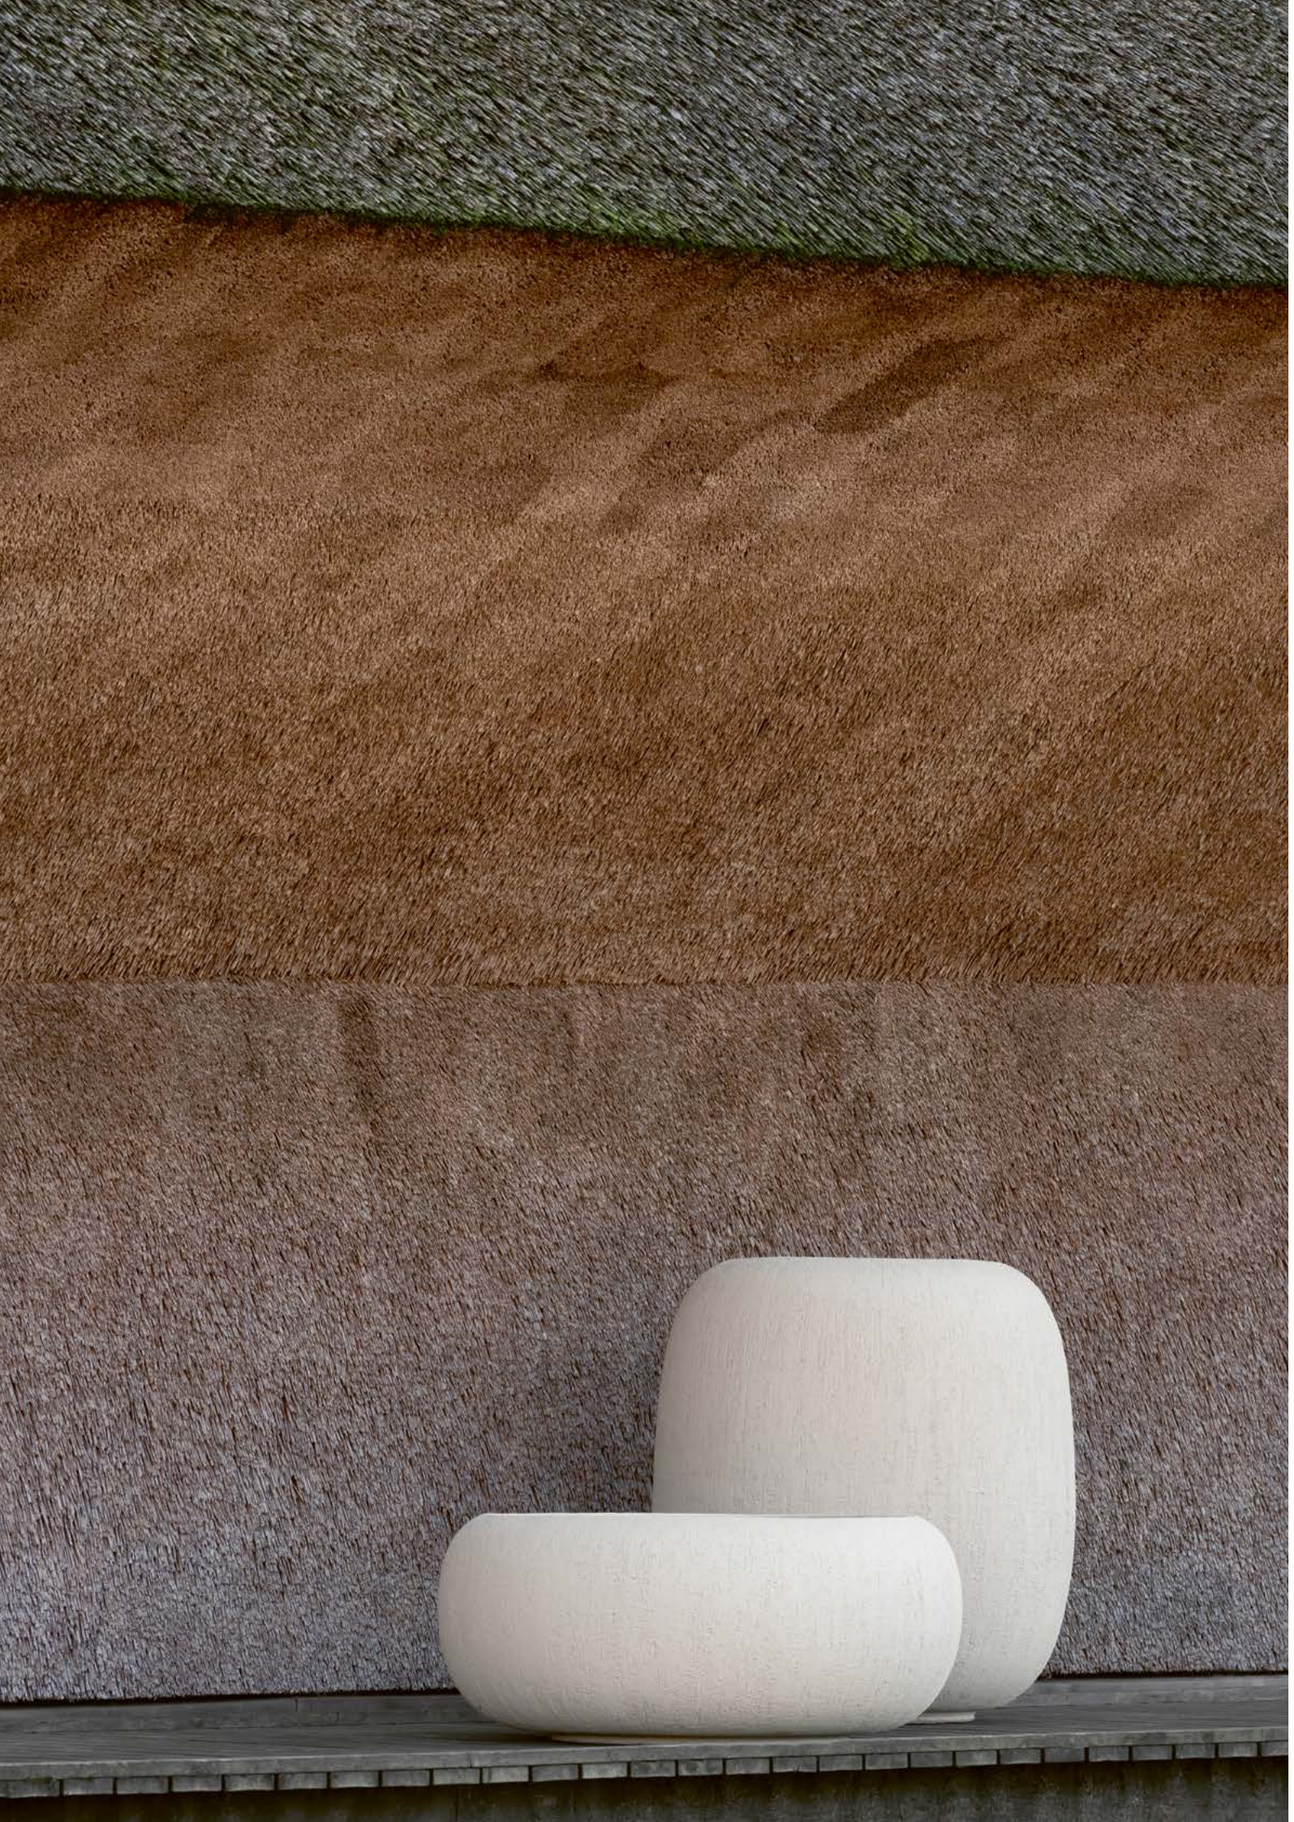

A calm, sensorial presence defines MELIDES, created with architect and designer Vincent Van Duysen. The profile is a soft organic volume that tapers inward to a balanced rim. Its exterior is treated like skin – hand-eroded and finely texturised to a wind-worn grain. Subtle tones keep the form composed while heightening its tactility. Rooted in the coastal landscapes of Melides, Portugal, the collection sits naturally in architecture and landscape and feels considered in every scale.
